### Objects

Computer Science student passionate about Front-end Development and Software Testing. Proficient in HTML, CSS, Bootstrap, currently learning JavaScript, React, and Manual Testing (ISTQB Foundation Level). Basic Java programming, OOP.

Member of Digital Egypt Pioneers Initiative (Round 3) Software Testing track.

Eager to improve skills continuously and deliver high-quality software solutions.

### Education

Expected Graduation: 2028

**Bachelor of Computer Science — High Institute of Computer Science – 6th of October**

- Relevant coursework: Programming Fundamentals, Java with Object-Oriented Programming (OOP), Software Engineering.

### Projects

#### Front-End Projects

Jun 2025 – Present

- HTML, CSS, Bootstrap (Proficient), JavaScript, React, JQuery, Tailwind, Sass (Learning)
- Applied best practices in layout, typography, and color schemes.

#### Digital Egypt Pioneers Initiative — Software Testing Track

Oct 2025 – Present

- Learning and practicing Manual Testing techniques.
- Executed test cases and documented results for sample applications.

#### Java Programming Projects

Jun 2025 – Present

- Developed console-based applications using Java.
- Applied Object-Oriented Programming (OOP) concepts such as Objects, Classes, Inheritance, and Encapsulation.
- Wrote clean and organized code using IntelliJ IDEA.

### Skills

- **Technical Skills:** Teamwork, Time Management, Problem Solving, Handling Work Pressure.
- **Languages:** Arabic (Native), English (Good command).
- Member of Digital Egypt Pioneers Initiative (Round 3) — Software Testing track.
